Philip,

I will call you later this morning. I have a conference call on R2's Lower Passaic River Superfund Site from 9:00 to ~12:00 EDT. I will call you when this call ends.

Are you aware of Superfund's Sediment Resource Center (see link below).

<http://www.epa.gov/superfund/health/conmedia/sediment/ssrc.htm>

RPMS can request assistance from this Center, and this Center is funded. They already have an IAG set up with ERDC, so transfer of funds can be performed quickly.

FYI - I am a member of CSTAG. Before I started work at ERDC-CHL this past January, I worked for the ORD lab in Athens, GA for nine years. When I left EPA, Superfund changed the rules to allow non-EPA federal govt workers to serve on the CSTAG. I just wanted you to be informed of this before I did any work for you.

Thanks,

Earl
